Veterans of Foreign Wars of the United States (VFW) Partners with AGENDA: USA for National Conventions

Lenexa, Kans. (June 21, 2007) – AGENDA: USA is pleased to announce an agreement with the Veterans of Foreign Wars of the United States (VFW) to manage ground transportation for its upcoming national conventions to be held in Kansas City, Mo. The VFW's 108th National Convention and the Ladies Auxiliary VFW's 94th National Convention will be held August 18 - 23. The organization expects between 8,000-10,000 people to be in the city during that time.

This is the first year AGENDA: USA will manage ground transportation for the convention, although the company has provided ground transportation services to the national headquarters of this organization for more than 10 years.

“We look forward to continuing our relationship with AGENDA: USA as they have been a reliable partner for many years,” said Vanessa Kane, CMP, Meetings and Events Manager for VFW.

With 2.4 million members worldwide, VFW's mission is to “honor the dead by helping the living” through veterans' service, community service, national security and a strong national defense. Members come together during the conventions to elect national officers and to vote on new governing amendments and organizational bylaws.

AGENDA: USA is the chauffeured transportation division of AGENDA: Kansas City, a full service Destination Management Company that has provided event coordination, tour and transportation services to organizations in the metro area since 1989. Further information about the company can be found on its website, www.AGENDA-KansasCity.com.
